

## AtmosAir™ Solutions Awards Contest Winner

**FAIRFIELD, Conn., March 14, 2008** – Mr. Mo Zia, an adjunct professor from Norwalk Community College was announced the winner of a drawing for an AtmosAir™ Solutions T400 recently. Mr. Zia was one of over 400 entries in the drawing held at the AtmosAir Solutions exhibit at the International AHR Expo held in New York at the end of January.

“We are pleased to present this AtmosAir T400 to Mr. Zia,” said Carlos Gendron, Vice President Sales & Marketing for AtmosAir Solutions. The AtmosAir T400 is the company’s leading portable tower unit for improving indoor air quality in single rooms - both residential and commercial. “Now Mr. Zia will have the opportunity to experience firsthand the difference AtmosAir Solutions products make in Indoor Air Quality (IAQ)” said Gendron.

AtmosAir Solutions products use a unique and proven patented air purification process that improves IAQ by eliminating mold, controlling bacteria and the spread of airborne viruses while reducing airborne particles and germs that get past normal filtration solutions without harmful by-products such as ozone or ultraviolet light. They are also highly effective against most offensive odors or unpleasant or toxic off-gassing and fumes (VOC’s – Volatile Organic Compounds).

IAQ is one of the top five environmental health risks identified by the Environmental Protection Agency (EPA). Because homes and commercial buildings are tighter and tighter these days and are bringing in less fresh air, the agency says indoor pollutants levels can be two to five times -- and sometimes more than 100 times -- as high as outdoor levels.

The AHR Expo is the world’s largest HVAC&R exposition and is held every year in conjunction with the American Society of Heating, Refrigerating and Air-Conditioning Engineers (ASHRAE) Winter Meeting.

Mr. Moe Zia, adjunct professor from Norwalk Community College (right), accepts an AtmosAir™ Solutions T400 as his prize from Carlos Gendron, Vice President Sales & Marketing (left) for AtmosAir Solutions of Fairfield, CT. Mr. Zia was the winner of a drawing held at the AtmosAir Solutions exhibit at the recent International AHR Expo held in New York City.

**About AtmosAir Solutions**

AtmosAir Solutions is a product line of Clean Air Group, Inc. AtmosAir Solutions' mission is to bring and restore to every indoor environment possible the same clean and pure quality of air that is typically only found at higher mountain elevations. AtmosAir Solutions products are designed for use in homes, condominiums, apartments, schools, hospitals, commercial office buildings, hotels, athletic facilities, beauty and nail salons, manufacturing facilities, waste water treatment plants and many other applications where improved indoor air quality is important or necessary. The products are available worldwide. Visit [www.AtmosAir.com](http://www.AtmosAir.com) for further information.
