

CLEAN AIR Group, Inc.

For Immediate Release

CLEAN AIR GROUP, INC ANNOUNCES NEW WEBSITE FOR ATMOS AIR SOLUTIONS PRODUCT LINE

FAIRFIELD, Conn., January 18th, 2008 – Clean Air Group, Inc. announced today it has launched a new website www.AtmosAir.com. The new website is designed to reflect a clean and contemporary image reflective of the AtmosAir Solutions line of products.

“We are really excited about the launch of this new site” explained Carlos Gendron, Vice President Sales & Marketing for (AtmosAir/Clean Air). “Our goal is to provide useful and relevant information in a customer-centric resource. We intend to continue to build the site with content and additional features.”

The website offers a visitor-friendly navigation that allows the user to easily access information about the most relevant product applications to meet their needs. Commercial, industrial or residential customers will find detailed product information, profiles of recent projects completed, competitive comparisons and test results relevant to their individual market areas.

In addition, in depth information is available that explains the unique and proven air purification process used by AtmosAir Solutions and other important topics such as energy savings, sick building syndrome, and other useful information.

About AtmosAir Solutions

AtmosAir Solutions is a product line of Clean Air Group, Inc. AtmosAir Solutions’ mission is to bring and restore to every indoor environment possible the same clean and pure quality of air that is typically only found at higher mountain elevations. The products use a unique and proven patented air purification process that can eliminate mold, control bacteria and the spread of airborne viruses and reduce airborne particles and germs that get past normal filtration solutions with no harmful by-products such as ozone or ultraviolet light. AtmosAir Solutions products are designed for use in homes, condominiums, apartments, schools, hospitals, commercial office buildings, hotels, athletic facilities, beauty and nail salons, manufacturing facilities, waste water treatment plants and many other applications where indoor air quality is important or necessary. The products are available worldwide.

Visit www.AtmosAir.com for further information.

About Clean Air Group
